

Chain Oil 007

Chain Oil Spray for Bike

Chain Oil 007 is an effective lubricant for chains and sprockets, designed to penetrate chain links without O-rings. It is a light lubricant that prevents dirt from forming abrasive paste that could damage chains and sprockets. The formulation ensures strong adhesion and excellent wear reduction, while preventing mess from surplus oil. As a moisture dispersant, it protects treated chains from corrosion and its high concentration ensures economical usage.

Applications

Apply sparingly to chain drives and sprockets for best effect. Reapply before each race if used on motorcycles or karts. After rinsing chains and sprockets, reapply to ensure continuous protection.

Benefits

- Contains LSTÜMPA 1 unique metal treatment for enhanced lubricity
- Moisture dispersing and high temperature resistant
- Requires light application for cost-effective usage
- Helps reduce mess during use

Caution

Do not puncture or incinerate can. Keep away from heat and direct sunlight. Spray away from body and eyes.

Key Properties

Parameter	Value
Propellant	CO ₂
Viscosity (ASTM D445) @ 40°C	40 mm ² /s
Density (IP 261) @ 20°C	0.88
Flash Point (COC)	181°C

Packaging: 150 ml Aerosol Cans
